DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: Container adapted to dispense paper.

2. The detailed description is being objected to because it makes reference to the claims (lines 13,21 page 2, lines 4,17 page 3, lines 5,22 page 4).

The applicant is reminded that specification and should breathe life into the claims not visa versa.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1-6, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

"Or the like" appears twice in every claim. This makes the scope of the claims unascertainable and claims should be changed to avoid the use of the phrase "or the like".

Examiner will proceed with prosecution in view of said changes.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4 rejected under 35 U.S.C. 102(b) as being anticipated by Harwood USPN 2,323,395.

Harwood discloses a paper container comprising:

- (Re claims 1,2) “Main body for accommodating a number of papers (or the like), such as tissue papers” (15 figure 5)
- (Re claims 1,2) “opening portion for taking our said paper” (20 figure 5)

Harwood further discloses:

- (Re claims 3,4) “said opening portion is composed of a pair of up and down flaps” (21 figure 5)

Allowable Subject Matter

5. Claims 5 and 6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
